Summary of Interview

Applicant Name: Stephen Broderick, Dennis Broderick

Application Number: 10/714,805

Telephone interview, September 29, 2010

Participants: Alp Akbasli, Examiner, Brian Glessner, Supervisor, Stephen Broderick, Applicant.

Prior Art Discussed: Carney Jr, US 6,178,714

It was agreed that the prior art of record (Carney Jr, US 6,178,714) did not teach of a concrete block that is one story high. Finality is withdrawn and Examiner will do another search.

All claims 1-3 were discussed in the interview.

We talked about claim one prior art does not show one story high concrete building block.

Claim two was discussed that it's not the exterior face of a building that's being claimed, and it's not a panel that's being stamped, it's a building block, that's being stamped.

Claim three was considered in respect to the size of a one story high block being able to accommodate a window or door being formed into a single block, with no need for a plurality of blocks to form the door or window, as is the case with "standard" sized building blocks.
